

Bio

Robert K. Gojanovich, ENP
Sales Director, Next Generation 9-1-1
TeleCommunication Systems, Inc. (TCS)

Bob (“Gojo”) Gojanovich has over 40 years experience in telecommunications, including 23 years specializing in Public Safety communications. As part of his 31-year career with Verizon, Bob successfully managed the New Jersey Enhanced 9-1-1 Network, a statewide system serving over 300 Public Safety Answering Points and nine million citizens, from its inception in 1989 through 2003.

After retiring from Verizon, Bob held consulting and sales positions with iXP Corporation, HBF Group, Intrado and RCC Consultants. In June of 2010, Bob joined TCS as Director of Sales for NG9-1-1. He is responsible for developing NG9-1-1 sales opportunities for the eastern US and eastern Canada.

Mr. Gojanovich has been actively involved in the development of 9-1-1 technical standards at the national level since 1993. He chaired the Network Technical Committee for the National Emergency Number Association (NENA) for 10 years and remains a Strategic Advisor to NENA’s Development Steering Council. Bob also helped develop and deliver NENA’s NG9-1-1 tutorial. Among the NENA and Public Safety community at large, he is a frequent and respected presenter and subject matter expert.

Bob was the recipient of NENA’s William E. Stanton Lifetime Service Award in 2003 and is a member of the NENA Hall of Fame.
