Aligns to the FirstNet Authority Roadmap

Coverage Enhancement Investment

Expand the NPSBN Deployables Fleet

Current NPSBN Deployables Fleet

- **70+ FirstNet-dedicated** deployable assets available nationwide
- **Subscribing agencies can request deployables** to support disasters, critical incidents, and planned events
- **Service includes** all expenses directly associated with FirstNet deployables at no additional cost to FirstNet subscribers

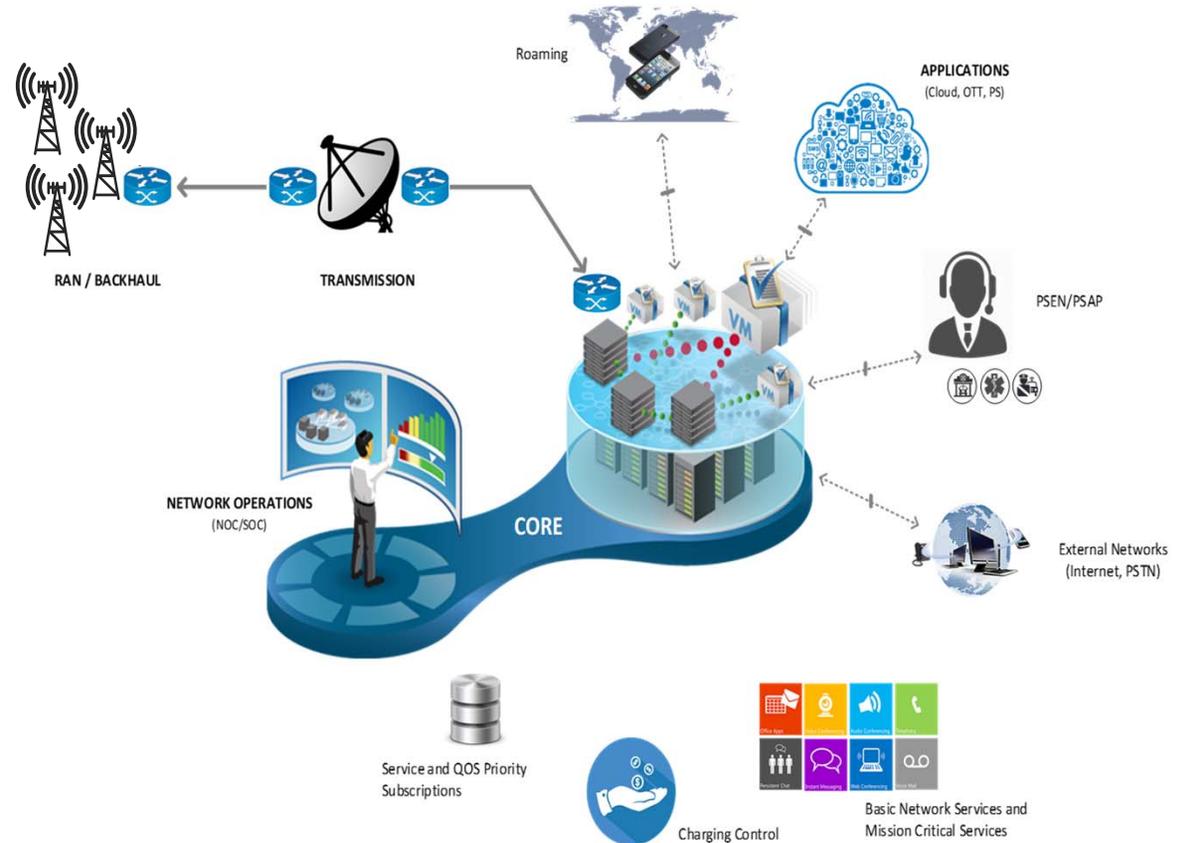

Network Enhancement Investment

Enhance the FirstNet Core for 5G network capabilities

Current FirstNet Network

- Public safety **always** gets **priority and preemption**
- **Highly secure network** to meet public safety's data requirements
- **Controlled access** by public safety agencies for their users
- Coverage **where public safety operates**
- Enhanced user experience

Experience Program Key Tenets

Elements of the Experience Program

Vision

The Experience FirstNet program will facilitate hands-on engagements and interactive experiences that strive to provide public safety the ability to experience the FirstNet solution and innovations, as well as the opportunity to offer input on network features, services, technologies, capabilities, and potential future innovations.

Sample Roadmap Experience: Situational Awareness

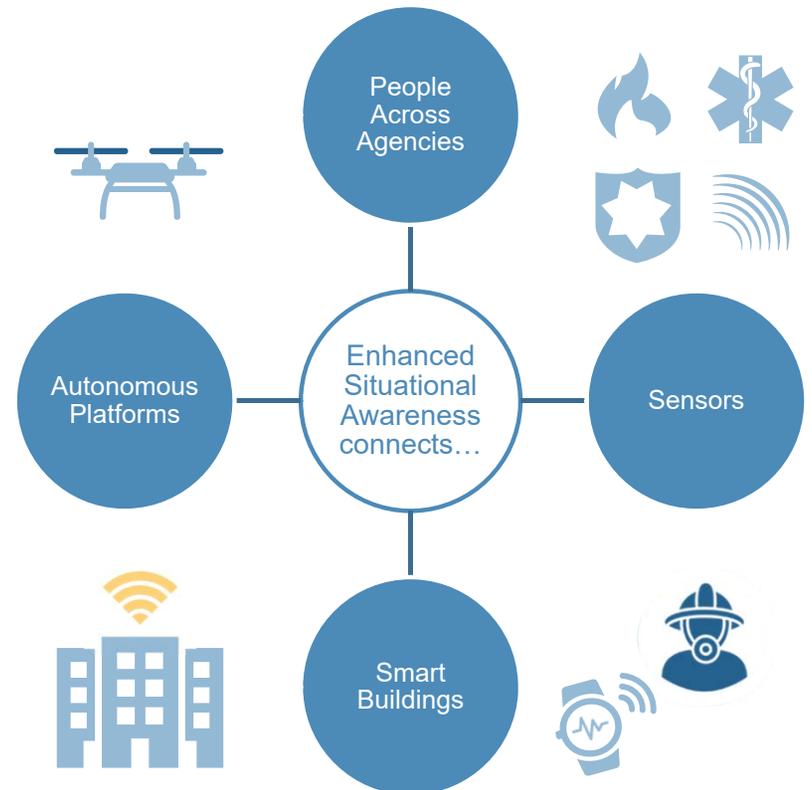

The Vision

The FirstNet Authority envisions real-time access, collection, and distribution of information concerning threats, hazards, and conditions in a manner tailored to public safety operations.

What is Enhanced Situational Awareness?

Use of advanced technologies to break down the barriers to information sharing among first responders via enhanced communications and shared intelligence gathering and analysis

Collaborate with industry and advocate for the development of standards, devices, technologies, and systems that collect, synthesize, analyze, and share information regarding personnel, assets, threats, and hazards in a manner that improves public safety operations.

Q&A
