ANONYMOUS HACKS BOSTON POLICE WEBSITE IN RETALIATION FOR POLICE BRUTALITY AT OWS
#####

Is that it? Hell no, there is plenty more mayhem to deliver for this #FuckFBIFriday. Do you remember a few months ago when #antiseC attacked the Boston Police and released hundred of passwords in retaliation for the brutality against Occupy Boston? They clearly ignored our warnings, because not only did they raid the camp again and kicked protesters off of public parks, but they also sent undercover TSA agents to assault and attempt to steal from some organizers. So you get your kicks beating protesters? That's OK; we get kicks defacing and rm'n your websites - again. BDNNews.com, the "Boston Poice Department Virtual Community" also fell to the swift merciless veengeance of the hive. Do you really want to step to this??

NO BAG

BAG MEN

Feds seek these two pictured at Boston Marathon

Investigators probing the deadly Boston Marathon bombings are e-mailing law-enforcement agencies photos of these two men seen on surveillance near the finish line. The Post has learned.

One is carrying a duffel bag, and the other has a backpack — which is not visible in a later photo. There is no direct evidence linking them to the crime, but authorities want to identify them.

SEE PAGES 4, 5, 6, 7

A high-angle photograph of a large, diverse crowd of people gathered at an outdoor event. The crowd is densely packed, filling the frame from the foreground to the background. Many individuals are wearing casual clothing like t-shirts, hoodies, and hats. In the upper right corner, a person in a bright yellow jacket and cap is visible on a raised platform or scaffolding. Several flags, including the United States flag and a flag with green, white, and red stripes, are visible on the right side. The entire image is overlaid with numerous red circles of varying sizes, highlighting a large number of people. A black rectangular box with white text is centered in the lower half of the image.

IS THIS THE BOSTON BOMBER?
